

ATTENTION HOMEOWNERS

Get More Hot Water For Your Money

CHOOSING THE RIGHT MODEL.

Next to the heating system, a water heater is the largest consumer of energy in a home. To help choose the correct model, you need to do more than compare prices. Although the cost of a water heater is important, you should consider the hot water requirements, usage patterns and local energy costs.

GALLON CAPACITY CHART

How many residents? _____

How many baths/showers? _____

Add one (1) for each automatic dishwasher and washing machine. _____

TOTAL: _____

NOTE: In homes with spas, whirlpools or oversized baths, a plumbing contractor can help select the correct sized water heater.

NOTE: If your total is greater than 10, a multiple-unit installation may be required. Consult your plumbing contractor.

| ELECTRIC | |
|------------------|-------------------------|
| IF YOUR TOTAL IS | RECOMMENDED CAPACITY IS |
| 4 or less | 40 gallon |
| 5 - 6 | 50 gallon |
| 7 - 8 | 65 gallon |
| 9 or 10 | 80 gallon |
| 11 or 12 | 119 gallon |

| GAS | |
|------------------|-------------------------|
| IF YOUR TOTAL IS | RECOMMENDED CAPACITY IS |
| 4 or less | 30 gallon |
| 5 - 7 | 40 gallon |
| 8 - 9 | 50 gallon |
| 10 or 11 | 65 gallon |
| 12 | 75 gallon |

WE BELIEVE IN PROFESSIONAL INSTALLATION

- We know how well water heaters can work and how safe they can be properly installed. We also know the downfall and dangers if installed incorrectly. That's why we believe water heaters should only be installed by professionals.
- With new stringent standards on many residential gas fired water heaters, we created the Defender Safety System®, a cutting edge technology that complies with Flammable Vapor Ignition Resistance standards. Your professional installer knows that he can count on Bradford White to meet these requirements now and in the future
- These new industry-wide design changes like the Defender Safety System®, are making water heaters more complicated than ever. Proper installation and service requires Bradford White to train and educate professional installers. This is why Bradford White water heaters are only installed by professionals and why our water heater is best for you.

Bradford White Ranked "Highest in Subcontractor Satisfaction among Water Heater/Boiler Manufacturers" by J.D. Power and Associates.

MADE IN USA

Note: Installation of a new water heater should be left to a professional. Improper installation can result in early tank failure, voiding of the warranty and serious injury. These reasons and other potential dangers are why Bradford White water heaters are only available through and for installation by your plumber.

ALL OF THESE FEATURES ARE YOURS... AT NO EXTRA COST.

The Bradford White Defender Safety System® is a new combustion technology that resists the ignition of flammable vapors outside the water heater. It maintains outstanding efficiency, a long service life and low Nox emissions while providing maintenance free operation.

The Defender Safety System's unique design causes several directional changes to the flow of combustion air. This series of diversions is the key to "scrubbing" the air of the majority of lint and dust, providing years of trouble-free service.

Hydrojet® Total Performance System - This cold inlet tube was engineered to reduce costly sediment build-up by

mixing water flow as it enters the tank. The result: longer tank life, energy savings and more hot water for your money.

Vitraglas® - A porcelain lining formulated and applied to the interior of the water heater tank. Provides unsurpassed protection against failure.

Six Year Limited Tank and Parts Warranty - (optional upgrade warranty kits are available)

ISO 9001 - STANDARD Bradford White has achieved the ISO-9001 certification. Achieving this goal required total dedication to quality and consistency. We didn't settle for less and neither should you.

Contact your Plumbing Contractor and insist on having the best water heater installed in your home. *Insist on a Bradford White.*

DID YOU KNOW?

Your water heater is a major energy consumer in your home. If your water heater is more than a few years old, you may consider replacing it with a new, energy-efficient Bradford White model with the Hydrojet Total Performance System.

A Bradford White Water Heater equipped with the Hydrojet® will give you:

Based on Standard U.S. Government tests

ENERGYGUIDE

Water Heater Capacity (first hour rating) GAL GAS 75

BRADFORD WHITE M1483T1BLN12 -131

Compare with Energy Use of this Water Heater with Others Before You Buy.

This Model Uses 268 THERMS-YEAR

Energy Use (THERMS /year) range of all similar models

Uses Least Energy 220

THIS MODEL Uses Most Energy 288
