

# Simple Harmony™ Drinking Water System

Get bottled quality water  
without the bottle or the bother.

The **Simple Harmony™** Drinking Water System tucks neatly under your sink and dispenses a constant supply of delicious water to the faucet installed to your sink. The heart of the system is a highly compressed carbon block filter made of selected activated carbons to reduce tastes and odors, and aesthetic chlorine. Up to 500\* gallons of drinking water can be produced before the cartridge needs replacement. And when a cartridge change is required, all it takes is a quick turn of the filter body locking ring. No tools are required.

The **Simple Harmony™** Drinking Water System effectively reduces the following contaminants:

- Bad tastes and odors
- Dirt and rust
- Aesthetic chlorine

System Features:

- 1 micron filtration
- Compact unit installs conveniently under your sink
- Rugged stainless steel housing
- Dual filtration carbon block filter provides a constant supply of highly filtered drinking water

\*500 gallons for model 38247, faucet included.

# Simple Harmony™ Drinking Water System Specifications

Clean, odor free, delicious water system that tucks neatly under your kitchen sink.

- Dispenses a constant supply of delicious water to a special faucet installed at your sink
- Significantly reduces bad taste and odor by filtering out chlorine and chloramines that are in your tap water
- Up to 500 gallons of drinking water can be produced before the cartridge needs replacement (Approximately 1 year)
- Save both money and time by not buying bottled water
- Help save our earth\*
- 10 year warranty on all parts

How a **Simple Harmony™** drinking water system works

Step 1: Cold water enters the system.

Step 2: Water is forced through the tightly compressed activated carbon block filter that has a porosity of only 1 micron.

Step 3: Unwanted substances are trapped and filtered out.

Step 4: Water leaves the filter and flows through the system's faucet, providing you with an abundant supply of crystal clear, delicious water for both drinking and cooking.

**Simple Harmony™** drinking water system specifications:

Flow Rate: .75 gallons per minute (2.84 LPM)

Capacity: 500 gallons (1,890 liters) with faucet

Operating Supply Pressure: 40 – 100 PSI (2.76 – 6.89 bar)

Operating Temperature: 50 – 100°F (10 – 37.8°C)

**Simple Harmony™** Carbon Filter (under sink mount) – Part # 38247

**Simple Harmony™** Filter Cartridge (P12) – Part # 38675

**\*Help save our earth**

17 million barrels of oil used annually to produce the plastic bottles in the US. Bottle water produces 1.5 million tons of plastic waste each year. This statistic does not take into account the hundreds of millions of gallons of gas required to transport the bottles. Plastic bottles never degrade and will be here forever!
